WHERE ARE WE *Going?*

SAMBURU NATIONAL RESERVE

Set on the banks of the Ewaso Ng'iro River and neighbouring the Buffalo Springs National Park, Samburu National Reserve is characterised by a spectacular landscape of rugged hills, undulating plains and riverine forests. The park is home to abundant wildlife including a variety of rare species such as the Reticulated Giraffe, the long-necked Gerenuk, Somali Ostrich, Grevy's Zebra, and Beisa Oryx. Visitors can also enjoy spotting over 900 elephants, a variety of predators, and over 450 bird species. The ancient traditions of the Samburu people remain vibrant here, offering a rare glimpse into two remarkable customs. First, witness how each herdsman's unique call guides his cattle with precision. Then, experience the powerful dances performed by tribesmen—rituals that have been passed down for centuries.

MAASAI MARA NATIONAL RESERVE

The Maasai Mara together with Tanzania's Serengeti form Africa's most famous wildlife park, the Maasai Mara National Reserve. For many, the sight of Acacia trees scattered across vast grass plains captures the essence of Africa. The undeniable highlight of the Maasai Mara National Reserve is undoubtedly the annual wildebeest migration traversing the vast plains of the Serengeti and the Maasai Mara. It is known as the largest mass movement of land mammals on the planet – with more than a million animals following the rains. Large prides of Lions, herds of Elephants, as well as Giraffes, Gazelles and Eland can also be spotted in the reserve. Aside traditional vehicle safaris, hot-air ballooning over the Mara plains has become almost essential.
